Here are some other ways you can protect yourself from fraud:

- Don't share your Medicare number with anyone who contacts you by telephone, email, or in person, unless you've given them permission in advance. Medicare will NEVER contact you for your Medicare number or other personal information.
- Don't ever let anyone borrow or pay to use your Medicare number.
- Review your Medicare Summary Notice to be sure you and Medicare are only being charged for services you actually received.

If you're looking to enroll in a Medicare plan, remember there are no "early bird discounts" or "limited time offers." Don't let anyone rush you to enroll by claiming you need to "act now for the best deal."
